

I would hate to see Indiana's telephone privacy law weakened, I would like it a lot stronger. I work 65 hrs a week for Ford and I am also the Acton, Indiana Marshal. What little time I have at home I cherish and to be interrupted by the phone during a meal or while in the shower does not set well, I am afraid not to answer simply because it could be an important call. This law has decreased the number of calls received by 20 per week. Make this law STRONGER!!!
